Terms and Conditions of Sale

Please Read Carefully

VISIT OUR NURSERIES, where will be found beautiful, healthy stock, grown under ideal conditions. We grow at Morgan Hill, Santa Cruz and Brentwood, where we can produce the best stock, free from serious pests and diseases.

TERMS—All prices quoted are net. Five per cent (5%) discount for cash with order. All bills due and payable 30 days from date of invoice unless otherwise arranged. Remittance or references must accompany orders from unknown correspondents.

ALL ORDERS are accepted subject to cancellation or change, on account of prior sale, depletion of stock, or other conditions beyond our control. All shipments are sent at purchaser's risk. This list cancels all previous quotations. Prices on application for stock not listed.

CLAIMS of any kind will not be allowed unless reported within 10 days after receipt of goods.

PACKING is done in the most careful way and a charge is made to cover cost of material only.

STOCK quoted in this list will be furnished 5 at 10 rate and 50 at 100 rate.

CONTRACTS for growing ornamentals, lining out stock, **FRUIT TREE SEEDLINGS**, budded trees and rose stocks are solicited.

NATIVE CALIFORNIA TREES AND SHRUBS are in demand. Our Nurseries are headquarters for this class of stock, and for your convenience they are marked with an (*) in this list.

GUARANTY—While we exercise the greatest care to have all stock true to name, we give no warranty, expressed or implied, and in event that stock is proven not true to name, we shall be liable only for the sum paid for such stock.

DESCRIPTIVE CATALOG of fruit trees and ornamentals mailed on request.

EXPLANATION OF ABBREVIATIONS—B., balled. B.R., bare roots. ft., feet. in., inches. P., pot. Qt., quart can. Gal., 1-gallon can. 2½g, 2½-gallon can. 5g., 5-gallon can.

Fruit and Nut Tree Department

For many years we have grown our fruit tree and ornamental **Seedlings** and **Budded Fruit Trees** near Brentwood, Contra Costa County, California. Experience has proven that we have here all the factors for the quality and quantity production of sturdy plants, with ideal fibrous root systems, which when transplanted develop into first class trees.

Our nurseries are free from injurious pests, our stock is clean and can be shipped to all parts of the world.

Our long experience in packing for near or distant points is your assurance that your stock will reach you in good condition.

SEEDLINGS

Our stock is grown from selected seed in well drained soil, which is sub-irrigated by a system at all times under perfect control.

We have no freezing weather to interfere with the proper growth and development of the trees, and our seedlings are freshly dug, carefully graded and packed for immediate shipment.

California seedlings grown in this location have proven the **BEST** for Pacific Coast or Eastern planting and as the Pioneer California Fruit Tree Seedling Growers, with 18 years experience, we are sure that a trial will convince you that we offer the **BEST**.

For best results plant clean, California grown seedlings, carefully graded and packed.
